MAXWELLPRODUCTS

GAP MASTIC

Composition

- Asphalt
- Aggregate
- Polymer
- Modifiers

Purpose of Mastics

- Fills the gap between crack sealants and repaving.
- Provides long lasting, even permanent repairs.
- Stabilize defects and prevent further erosion from water intrusion.

Mastic Applications

- Wide cracks over 2"
- Transverse cracks
- Leveling
- Alligator or Distress cracks
- Utility Trenches
- Drains, manhole surrounds
- Used on Highways, City streets, parking lots, bridges, bike paths, etc.
