BW1

Objectives of GRIT

Developed for Legislative Needs Study

- Easy to use web based tool
- Build on Google Maps
- Compatible with DOT's
- Add other transportation assets
- Must provide with minimal cost
- **Make data easily available for Counties to make informed decisions.**

pg. 2

TRANSPORTATION INSTITUTE

GRIT Editing Tool

- Four Layers with many attributes
- All Counties have entered data
- GRIT Web Map Viewers

The screenshot shows a web-based map application. On the left, there is a data entry panel with the following fields: LP Type (Surfacing), LP Surf (Bituminous), Bit. Type (SuperPave (FAA CI)), LP Year (1998), LP Surf Dpt (3), Total Surf Dpt (8), and a 1/2 field. Below these are buttons for Save, Delete, Cancel, and Copy. A 'Toggle Legend' checkbox is also present. The map shows a road network with several green circular markers. A blue callout box is overlaid on the map, containing the text and bullet points mentioned above. The bottom of the interface includes a 'Background Layers' dropdown, a scale bar (2 km), and a copyright notice for 2016 Google.

Asset Inventory Toolkit

Development of the Asset Inventory Toolkit is a team effort, led by UGPTI. A steering committee comprised of ten county transportation leaders, NDDOT representative, and NDACo representatives are providing guidance for the UGPTI's Inventory footprint development.

The screenshot shows the website for the Asset Inventory Toolkit. It features a navigation bar with tabs for Programs, About Us, International Partners, Resources, Research, Education, and Training & Outreach. A sidebar on the left lists resources such as Research Reports, Asset Inventory Toolkit, Event Proceedings, and Staff Presentations. The main content area includes a description of the toolkit, a list of help videos, a list of presentations, and related links. The NDSU logo and name are visible at the top and bottom of the page.

Asset Inventory Toolkit

Geographic Roadway Inventory Tool WebMap Viewers

The following webmap links were created to view various information as entered into the GRIT database. These webmap viewers will be updated and changed based on feedback from the Counties using them. Additional viewers will also be added to this list based on feedback. All data shown in these viewers is entered and maintained by the responsible County or City through the GRIT Editor Program. The Upper Great Plains Transportation Institute and North Dakota State University make no representation or warranty, expressed or implied, regarding the accuracy or reliability of the data displayed.

North Dakota

- GRIT Viewer – All Layers
- 2016 Needs Study
- Load Restrictions – All Roads
- Construction Impacts
- GRIT City Pavement Condition
- GRIT City 2016 Needs Study

Minnesota (limited to pilot project counties)

- GRIT Viewer – All Layers
- Construction Impacts with Load Restrictions

South Dakota (limited to pilot project counties)

- GRIT Viewer – All Layers

The screenshot displays the GRIT Editing Tool interface. At the top, there are tabs for 'Location', 'Project Info', 'Public Impacts', and 'Finance'. A configuration panel on the left includes fields for 'Type' (set to 'Construction'), 'Surfacing' (set to 'Bituminous'), 'Thickness' (in inches), 'Project #' (S.A.P. 003-625-007), and 'Planned Year' (2017). Below the panel are 'New' and 'Edit' buttons. The main area is a map of North Dakota with several green location pins. A blue callout box on the right contains the text: 'GRIT Editing Tool Please explore all Tabs and fill in missing data.' The bottom of the interface shows map controls like 'Map', 'Satellite', and 'Street View', along with the NDSU Upper Great Plains Transportation Institute logo.

A Few Updates on Enhancements and Related Projects

- Addition of Pavement Condition Forecasting
- Smartphone App for Roadway Image Capture
- Smartphone App for Pavement Ride Condition Capture
- Enhance web maps and customize for County websites
- Integrate with NDDOT 511 Maps

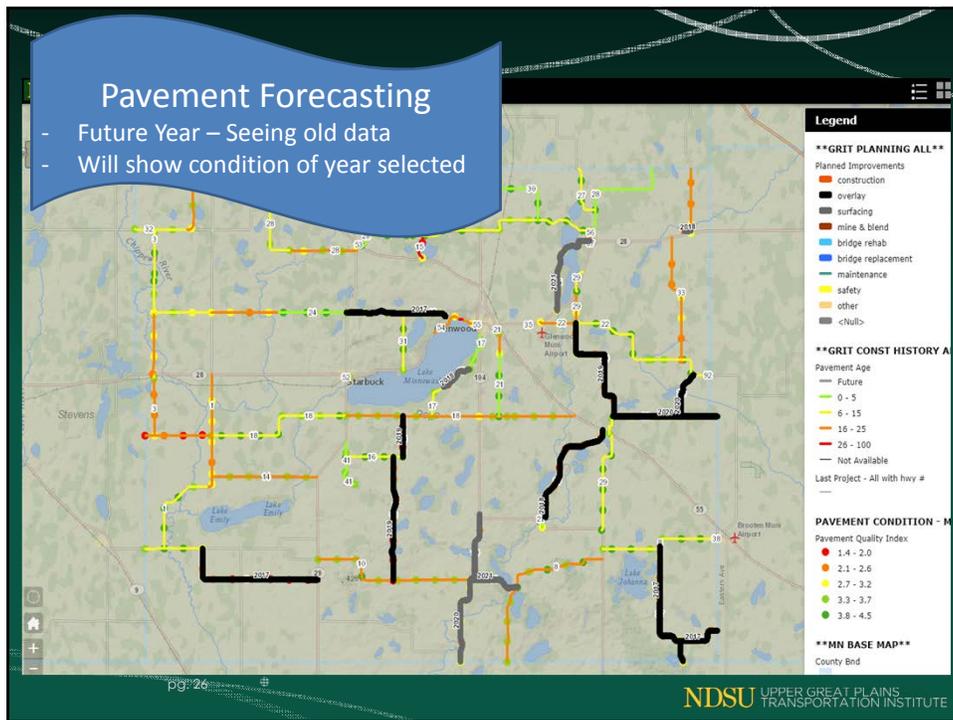

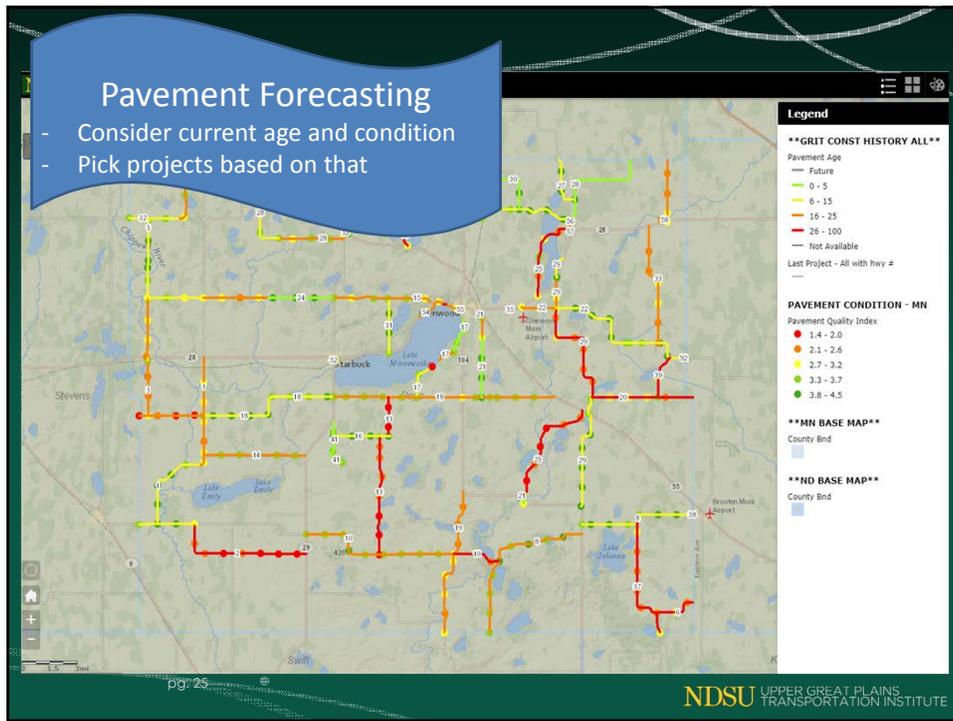

Photo Logging Application

- Collect with mobile phone
- Uploaded and available on GRIT viewers
