

PrePass Safety ALERTS™

Commercial Vehicle Safety Summit
December 4-5, 2024

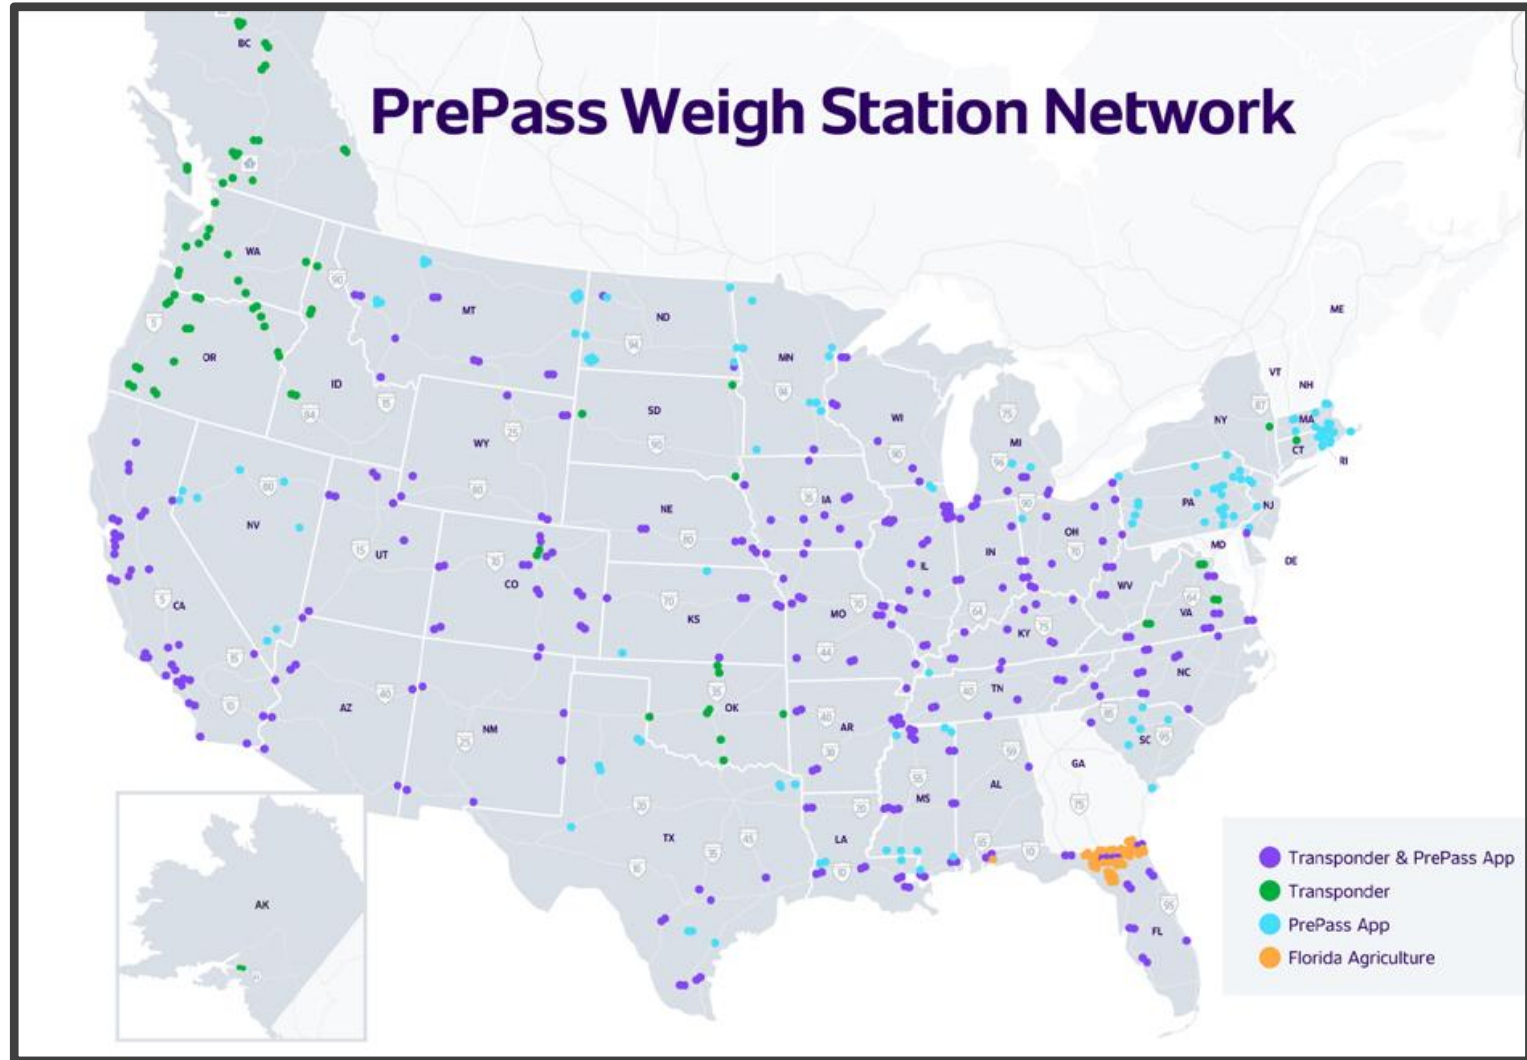

PrePass Safety Alliance Overview

- Established in 1993 as a 501(c)(3) non-profit public/private partnership
 - To provide PrePass preclearance infrastructure and services at no cost states - over \$1 billion invested to date
 - Oversight provided by an equal number of enforcement/DOT and trucking industry representatives from Alliance member jurisdictions
- Mission: Making highways safer and more efficient through innovative data-driven solutions
- Headquartered in Phoenix, Arizona
- Services:
 - **PrePass:** Preclearance service that allows qualified carriers the opportunity to bypass weigh stations if they meet state-specific requirements for credentials, safety, and weight
 - **PrePass Plus:** Combines weigh station bypassing with toll payment and management
 - **PrePass Safety ALERTS:** Drivers receive in-cab notification of approaching road hazards, helping them to stay alert and reduce speed when necessary

Market Penetration

- Over 750,000 trucks enrolled
- Bypassing available at over 550 fixed locations
- AZ, CA, CO, KS, MT, ND, NM, NV, TX, UT, WY
 - Over 13 million bypasses in 2024
- PrePass ALERTS available nationwide

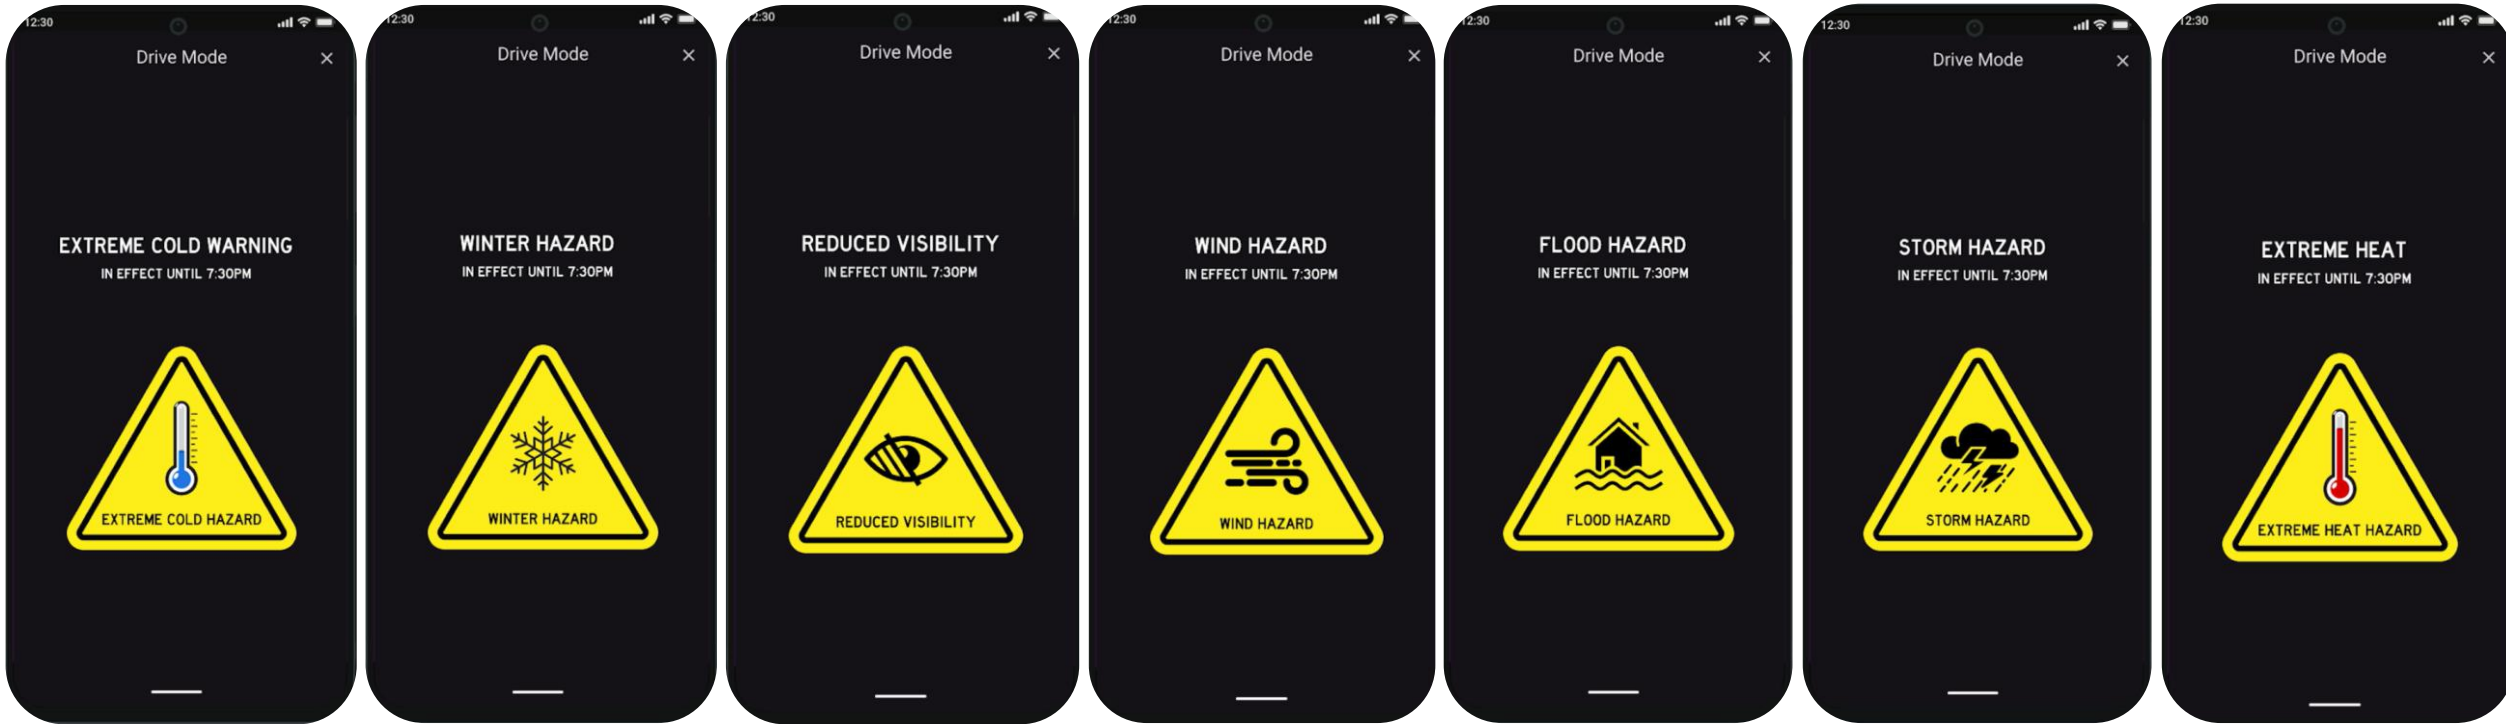

PrePass ALERTS

- ALERTS notify drivers in real-time of upcoming road hazards, inclement weather, and available parking so they can take appropriate caution or action
- ALERTS appear in-cab as audible and visual notifications without any driver interaction
- PrePass Safety Alliance provides ALERTS nationwide at no cost to states, even those without PrePass, to support our non-profit safety mission
- PrePass customers receive all ALERTS at no additional cost on their preferred device or in-cab technology platform
- Fleets can enable or disable ALERTS to customize notifications in support of their safety policies and procedures

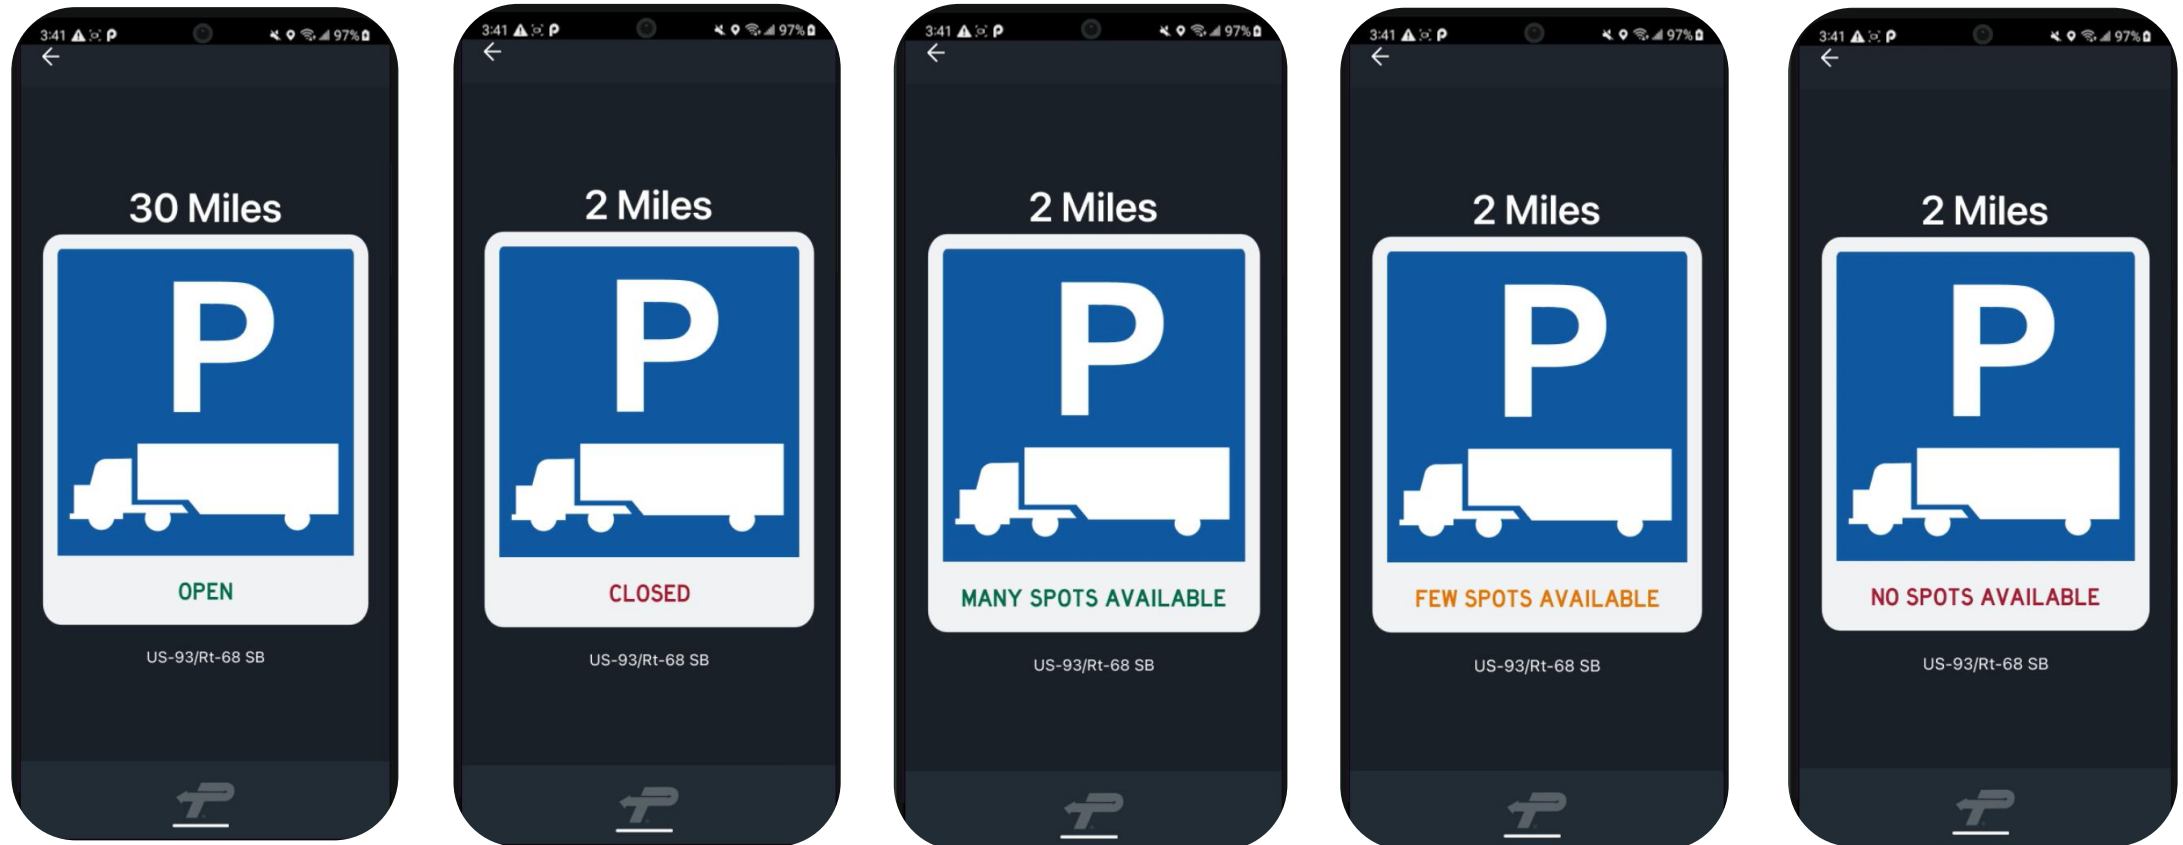

Dynamic Alerts - Safety

Dynamic Alerts - Weather

Dynamic Alerts - Parking*

*Available in seven states – Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, and Wisconsin.

Static Alerts
