Agriculture Transportation Safety

Safe Procedures for Public Roadway Travel

- **Avoid transporting equipment during:**
 - Low visibility conditions
 - Low light (generally 1 hour before sunset to 1 hour after sunrise)
 - Other weather conditions (fog, rain, snow)
- **Transporting over-weight loads**
 - Be aware of bridge and road weight limits
 - Match tractor weight to load weight
- **Transporting over-width equipment**
 - Use transport position
 - Use optional pilot vehicle
 - Use warning lights
- **Spilled/hazardous material**
 - Call 911
 - Must be 18 in North Dakota to transport

- **Meeting oncoming traffic**
 - Stay in proper traffic lane
 - Slow down and utilize shoulder if available
- **Accumulating traffic to the rear**
 - Pull onto shoulder to allow traffic to pass, preferred at each mile traveled
- **Crossing unprotected railroad tracks**
 - Stop and look both ways
- **Making left turns**
 - May require pilot car or someone to direct traffic
 - Use turn signal, if equipped

NOTE: An alternative route may be safer!
